PROJECTS

My personal agent, skill developped to Alexa
[21/10/2020 – 13/05/2021]

In my final thesis, I developed a skill for the conversational agent Alexa. Without any prior knowledge of NodeJS and services offered by Alexa, such as the skill creation environment or AWS services, I worked and trained with several courses on skill creation and NodeJS programming.

The skill is located in the Alexa skill store and you can find it through the following link:

UNIFERIA
[01/03/2020 – 11/03/2020]

UNIferia is the first virtual fair of undergraduate and master's degree studies, which brings together the most important university offerings in Spain. I coordinated the offer of my university and gave support to the different professors who participated in the project.
